

Test Equipment

Ensure ISO Quality Standards with Certified Ransburg Test Equipment

It shows in the finish. Controlling coating conditions is key to quality. Ransburg test equipment provides a means of achieving an optimum finish - time after time. Ransburg's complete line of testing equipment assures a quality finish, less downtime and less paint waste.

All Ransburg test equipment is compact and lightweight with accurate, digital readouts per/second updates.

Multi-Range Ohmmeter

Ground testing of conveyORIZED products

Certified to ASTM standard

Certified to ISO standards

Handy, protective carrying case

Deluxe Test Equipment Kit Includes:

- Paint Test Probe
- Sprayability/Paint Test Meter
- Gun Output Test Leads
- kV Test Probe Kit

Sprayability Test Meter, Paint Probe and Test Leads

By measuring the surface resistance of materials normally considered to be electrically nonconductive and indicating the degree of sprayability on a standard scale, the Sprayability/Paint Test Meter can determine whether such materials can be electrostatically sprayed.

Designed to provide measurement of the electrical resistance of paint formulations for all electrostatic applications as well as the short circuit current (SCI) of electrostatic applicators. It has an SCI scale (0 to 250 microamperes) and paint resistance scales (infinity to 0.01 and 2.0 to 0.001 in megohms).

The Paint Test Meter and Probe features:

- Digital multi-scale meter with integrated Sprayability Meter.
- Matching Paint Resistance Probe.
- Gun output test leads for short circuit current (SCI).
- Certified as ASTM standard.

Sprayability Test Meter and kV Probe

The kV Test Probe provides an accurate way to check electrostatic voltage of application equipment.

The kV (kilovolt) Test Probe features:

- Measures kV and surface sprayability in one meter.
- Measures all types of electrostatic equipment.
- Accurately displays throughout the entire measurement range.
- Certified to ISO standards from the factory.

Let's start a conversation

We want to work together to help answer your application challenges. To learn more about what we can offer, visit our website at **Carlisleleft.com** or call us today.
